

# Creating a slide presentation with Google Docs

Open up a new presentation document.

Make the title "presentation introduction".  
Put your name and period in the subtitle by  
clicking in the text box.

Highlight the title and then change the font color by clicking on the text color icon. Choose a color.

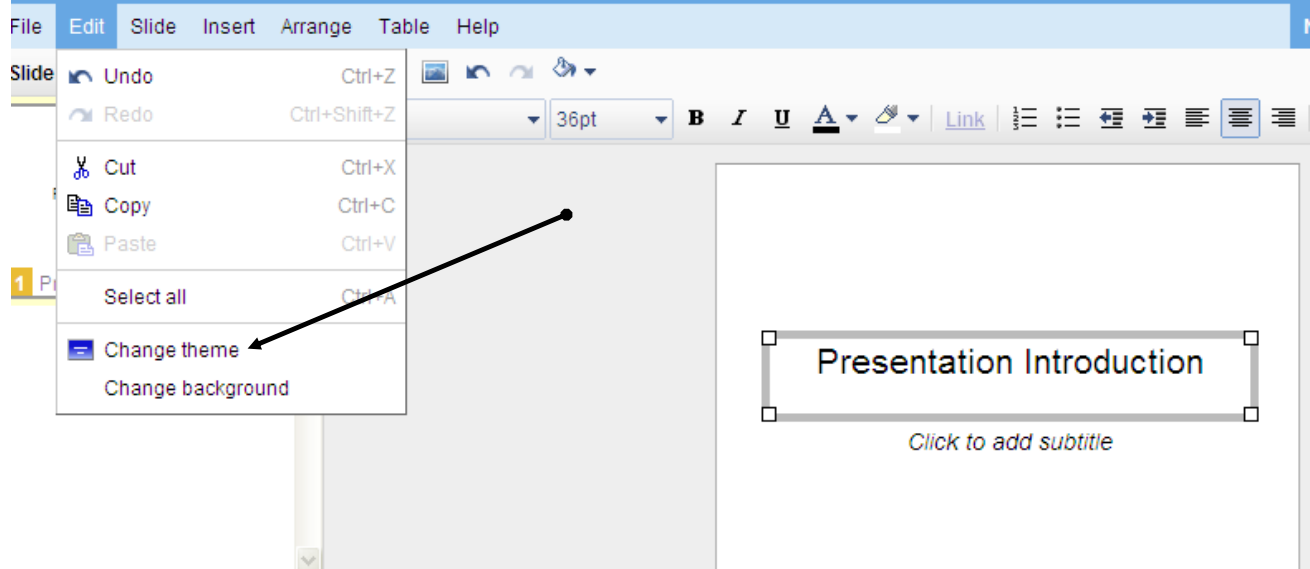

Select a theme for your presentation by clicking "Edit" and then "Change theme". Select whatever theme you like.

Presentation Introduction edited on September 8, 2009 3:37 AM by Bill Blevins

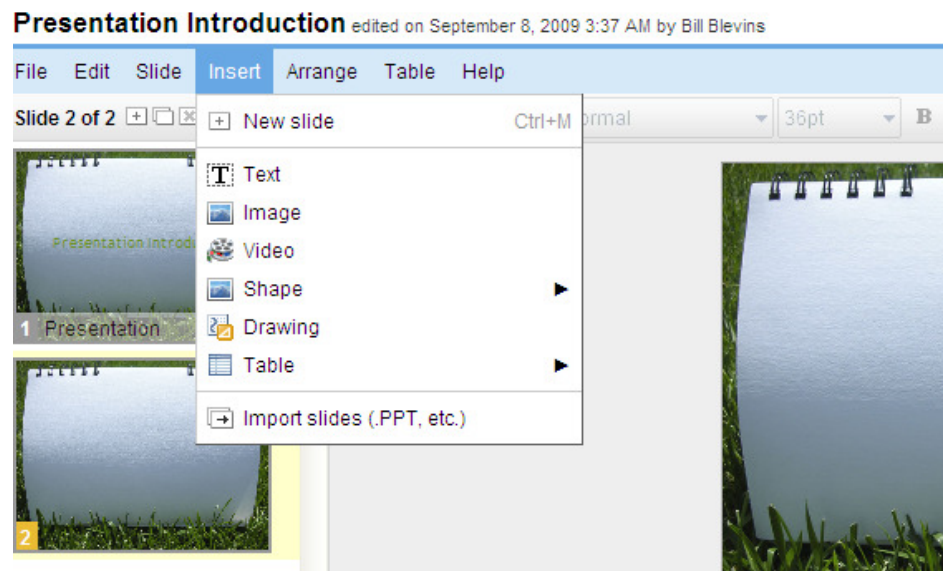

Start presenta

A **theme** gives consistency to a slide presentation. Looking at a presentation with different color backgrounds and fonts every slide can be very distracting. So don't do it.

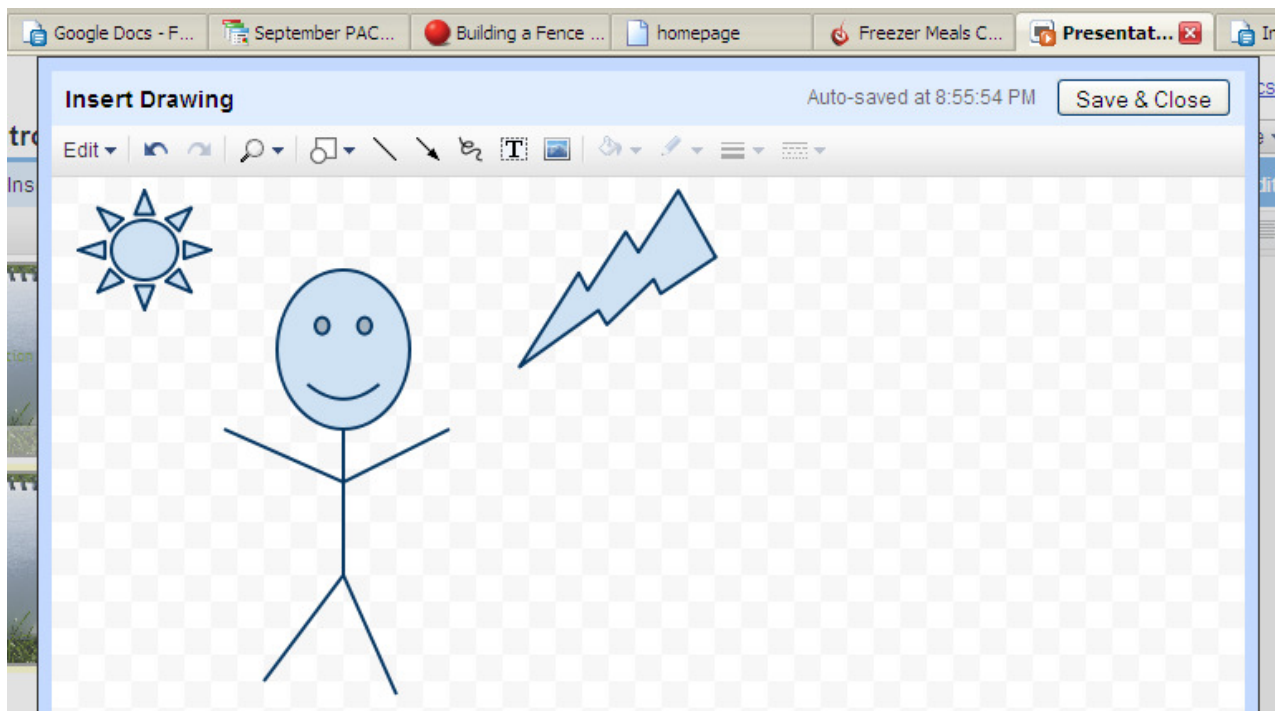

Insert a blank slide.

Google docs

Go to  
"Insert",  
then click  
"Drawing"

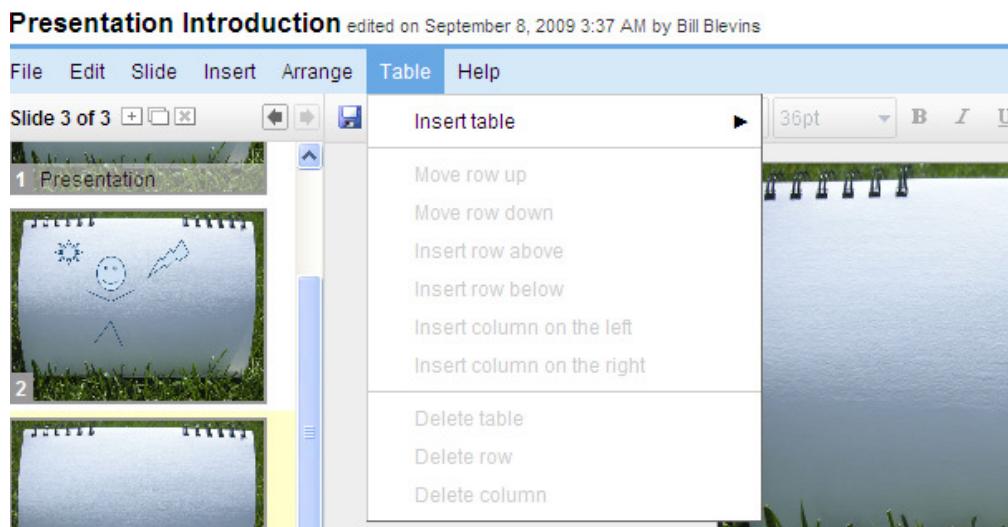

Go ahead and spend a few minutes and see what you can do here. When done click "Save and Close".

Create another blank slide.  
Go to "Table" then "Insert Table". Put in a 3  
x 3 table. Remember columns are up and  
down and rows are across.

Google docs

Make a tic-tac-toe game. Center the letters and vertically center the letters. Also, increase the font size.
